

# The Standard

Meets The Challenge Head On.

In 1919, Bullard pioneered worker head protection.

In 2005, we set the Standard again.

Not only are Bullard's newest hard hats still at the forefront in safety and function,  
they also establish a new standard for comfort and style.

***Bullard***<sup>®</sup>

The Standard  
from Bullard.  
***Built Bullard  
Tough.***

# The Standard

## Meets The Challenge Head On.

### Style.

Sleek, low-profile design.  
Lightweight and durable.

### Comfort.

Large, absorbent, replaceable brow pads.  
Heat-releasing ventilation slits optional.  
Patented Flex-Gear™ ratchet suspension  
with flex points for a personal  
fit, or self sizing suspension.

### Versatility.

Lightweight and trim, the Standard from Bullard features a low center of gravity for exceptional balance. The Standard Series comes equipped with accessory slots for mounting a variety of attachments, including face shields, welding helmets, earmuffs and headsets.

## Bullard Tough

How tough? Whether you operate heavy machinery, build skyscrapers, or frame homes around the globe, Bullard hard hats meet the challenge head on.

Adjustment

Nylon Crown Strap

# In 1919, Bullard pioneered worker head protection. In 2005, we set the Standard.

In 1919, in an effort to provide head protection for miners, Bullard developed the first hard hat by combining steamed canvas, glue and black paint. That design was soon modified for construction purposes to protect workers from falling rivets. Construction workers at America's first designated "Hard Hat Area" — the Golden Gate Bridge construction site — wore Bullard hard hats. Today, Bullard continues to be a leader in head protection design and development.

## Ordering Information

- S51** – Standard Series cap with rain trough, 4-point self-sizing suspension, Poly brow pad
- S51R** – Standard Series cap with rain trough, 4-point Flex-Gear ratchet suspension, Poly brow pad
- S61** – Standard Series cap, low profile, 4-point self-sizing suspension, Cotton brow pad
- S61R** – Standard Series cap, low profile, 4-point Flex-Gear ratchet suspension, Cotton brow pad
- S62** – Standard Series cap, Vented, 4-point self-sizing suspension, Cotton brow pad
- S62R** – Standard Series cap, Vented, 4-point Flex-Gear ratchet suspension, Cotton brow pad
- S71** – Standard Series hat, full-brim, 4-point self-sizing suspension, Cotton brow pad
- S71R** – Standard Series hat, full-brim, 4-point Flex-Gear ratchet suspension, Cotton brow pad

## Replacement Parts

- RS4PP** – 4-point replacement self-sizing suspension with pillowed Poly brow pad
- RS4PC** – 4-point replacement self-sizing suspension with pillowed Cotton brow pad
  
- RS4RP** – 4-point replacement Flex-Gear ratchet suspension with pillowed Poly brow pad
- RS4RC** – 4-point replacement Flex-Gear ratchet suspension with pillowed Cotton brow pad
  
- RSBPCOTTON** – Snap on replacement absorbent Cotton brow pad for all Bullard suspensions
- RSBPVINYL** – Snap on replacement Vinyl brow pad for all Bullard suspensions
- RSBPCOOL** – Snap on replacement brow pad, cooling material, for all Bullard suspensions

## Standards Information

- S51** – Flat front design, meets/exceeds ANSI Z89.1-2003, Type I, Class E and G requirements
- S61** – Non-vented meets/exceeds ANSI Z89.1-2003, Type I, Class E and G requirements
- S62** – Vented meets/exceeds ANSI Z89.1-2003, Type I, Class C requirements
- S71** – Full-brim meets/exceeds ANSI Z89.1-2003, Type I, Class E and G requirements
